vyshnave-portfolio.netlify.app

I am an experienced and detail-oriented Software Developer with 4+ years of experience, with a proven track record of creating user-friendly and visually appealing websites and applications. With expertise in HTML, CSS, JavaScript, TypeScript, and modern frameworks like Next.js, I excel at developing responsive and interactive user interfaces. I collaborate effectively with back-end developers and cross-functional teams to ensure seamless integration and optimal performance. My strong organizational skills and ability to manage multiple projects simultaneously have consistently delivered high-quality results that meet business objectives.

### Technical Skills

- Frontend Technologies: HTML5, CSS3, JavaScript, TypeScript, React.js (18), Next.js, D3.js, Three.js
- State Management: Redux, Context API, Zustand, MobX
- Styling Frameworks: SCSS, Tailwind CSS, Bootstrap, Material UI, Chakra UI, AntD
- Development Tools: Git, Visual Studio Code, Figma, Trello, Jira, Webpack, Babel
- Testing Frameworks: Jest, React Testing Library.
- Key Strengths: Responsive Design, React Hooks, Code Optimization, Cross-Functional Collaboration, Project Management, Progressive Web Apps (PWAs), Web Accessibility (WCAG)

### Professional Experience

- Software Developer - Techfriar Pvt Ltd, Infopark, Kochi** *Oct 2024 – Present*
- Spearheaded the development of scalable web applications utilizing Next.js and React.js, resulting in a 25% increase in user engagement.
  - Designed and implemented dynamic, mobile-friendly user interfaces with a focus on accessibility and cross-browser compatibility.
  - Collaborated with UI/UX designers to translate wireframes and mockups into responsive and functional front-end code.
  - Integrated RESTful APIs and third-party libraries to enhance functionality, ensuring seamless data flow and performance optimization.
  - Conducted regular code reviews and implemented CI/CD pipelines to maintain high-quality code standards and streamline deployment.
- Front-End Developer - FindOwn Technologies, Malappuram, Kerala** *Aug 2022 - Feb 2024*
- Developed visually compelling web applications using HTML5, CSS3, and JavaScript, ensuring adherence to industry standards and best practices.
  - Optimized website performance, reducing load times by up to 30% through effective use of caching and lazy loading techniques.
  - Collaborated closely with back-end teams to integrate APIs and resolve data-fetching issues, ensuring smooth end-to-end functionality.
  - Customized reusable components and modular styles using SCSS and Tailwind CSS, accelerating development cycles for new projects.

*June 2020 – Jan 2021*

## ● Web-Developer - EmpireAe Pvt ltd, Kochi, Kerala

- Successfully launched 10+ responsive websites optimized for desktop and mobile platforms, improving overall user satisfaction by 40%.
- Conducted user testing and implemented feedback to refine interface designs, enhancing usability and functionality.
- Utilized JavaScript frameworks to create interactive elements, such as dynamic menus and real-time form validation.
- Implemented version control using Git to maintain project integrity and collaborate effectively with team members.
- Worked closely with marketing teams to ensure alignment of website designs with brand guidelines and campaign objectives.

## Projects

---

### ● VIKI\_conference

[viki-conference.vercel.app](https://viki-conference.vercel.app)

- A responsive video conferencing app built with Next.js and Stream Video SDK. Users can create, schedule, and join meetings via unique invite links, with features like personal meeting rooms, device setup (preview, mic/cam toggle), participant controls, video layouts, and access to recordings.

#### Tech Stack:

- Next.js, React.js, Stream Video SDK, Tailwind CSS, SCSS, NextAuth.js, Vercel

### ● Dashboard

[admindashboard-flame-iota.vercel.app/](https://admindashboard-flame-iota.vercel.app/)

- Dashboard is a modern and user-friendly web application designed for visualizing, tracking, and analyzing key metrics through an interactive dashboard interface. It enables users to monitor data, generate insightful reports, and manage resources efficiently, making it suitable for business analytics, project management, or personal productivity. The dashboard offers customizable widgets and real-time updates to help users make informed decisions

#### Tech Stack:

- React.js , Tailwind, antD

More projects go though my github profile

## Education

---

### ● Bachelor of Technology in Computer Science And Engineering

#### University of Calicut

- Year of Graduation: 2018
- Eranad Knowledge City Technical Campus
